Other higher flammability provided upon request		

COUNT COMFORT

COUNT COMFORT upholstery leather by Boxmark is a thick leather surface treated with oil and wax, buffed to produce a nubuck effect, with a warm, silky feel and a typical two tone leather look. COUNT COMFORT is available in 9 colours.

Characteristics

COUNT COMFORT with a thickness of 1.6 - 1.8 mm is a unique thick leather with an embossed, natural milled grain which is finished manually with a dark peaked effect. Arousing emotions among connoisseurs, over time COUNT COMFORT develops a beautiful patina and is particularly recommended for classically elegant and stylish models in the living area.

Care & Cleaning

Boxmark recommends exclusive use of the COUNT wax after care set in order to retain the particularly waxy character of the leather and its sophisticated appearance in the best possible way. It is inadvisable to use other leather care products as they may cause damage to the leather.
