

BOXMARK EMOTIONS

The exclusive Boxmark Emotions structural embossments are available in all the colours of the Royal, Count Prestige and Imperial Premium collections of upholstery leather and offer over 3,000 options for design diversity. The embossments and colour effects allow the designer and manufacturer to impart outstanding visual accents to every product and to create maximum individuality. Unique effects on the embossed surface are obtained by additional processing of the surface using special dyes and gloss techniques.

Technical data

Embossed size: For technical reasons it is only possible to emboss half hides (halves). The embossed surface has a length of approximately 90 - 100 cm, resulting in a repeat of the pattern over the entire area. For all patterns except Manchester the repeat is 1500 x 1000 mm, for Manchester the repeat is 1000 x 220 mm.

Wipe and gloss effects

The embossments are hand wiped with gloss varnish or dye on request to produce shiny and/or bi-colour effects. These effects are illustrated in the brochure based on the Essex leather sample:

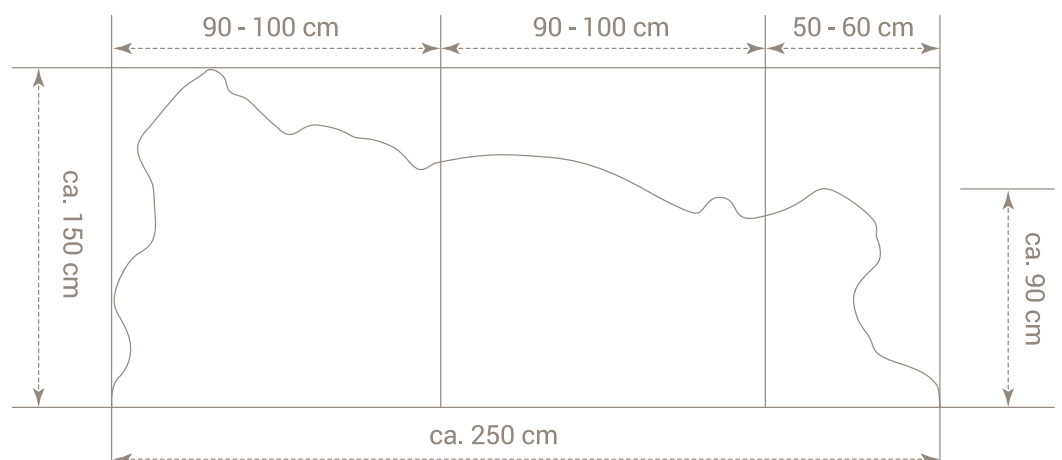

- A: Boxmark Emotions embossment
- B: Boxmark Emotions embossment wiped with gloss varnish
- C: Boxmark Emotions embossment wiped with dye and gloss varnish
- D: Boxmark Emotions embossment oversprayed with dark coloured dye and the peaks wiped off to reveal a lighter shade

Nubuck deep embossments

The Kent, Derby and Somerset nubucked deep embossments can only be produced on Count Prestige and Imperial Premium leather. These leathers are hydrophobized and fulfil the technical values of untreated leather.

Upholstery

It is recommended that the Emotions embossments are laminated when used on seat and backrest sections as well as on very taut parts in order to prevent distortion of the embossed structure.
